

Yellow Research

Horizon Europe ERC StG 2023 call

The deadline for ERC StG proposal call 2023 submission deadline set for 25 October 2022. Yellow Research continues to offer its ERC StG training through live Webinars.

The ERC selection criteria applied by the programmes use terms which have become familiar jargon, such as important challenge, novel concept, scientific approach and feasibility. The webinars will explain in detail not only what these terms mean and imply under the ERC umbrella, but also how the various ERC panels use these terms to discuss, assess and select project proposals.

In this training we will explain in detail the meaning of the evaluation criteria related to the project. In particular, finding the balance between ambitious objectives / new concepts and feasibility will be discussed. Furthermore, we will also discuss the panel specific expectation regarding the quality of the CV and track-record of ERC applicants. In other words, what to highlight in your CV and track record.

This training will supply you with the critical knowledge and understanding as how to write a succesful ERC grant

Outline of the webinars

- ERC Grants in a nutshell, the ERC objectives and evaluation process;
- Discussion in detail on the ERC evaluation criteria related to the research project regarding: 1) groundbreaking nature and ambition; 2) high risk high gain balance and the link to the potential feasibility of the methodology;
- Choosing the right panel for your proposal;
- Introduction of “ERC logic-tree” as a guidance to structure your proposal;
- Writing the B1 and B2: We will discuss the strategies behind writing each document. Furthermore, we will clarify the dynamics in each document between the objectives and the methodology section as well as the dynamics between the B1 and B2 overall.
- Principal Investigator: we will address the key elements for writing the CV-part including Funding ID, Early Achievement Track Record and assessment of career achievements.

Our trainers

Yellow Research trainers Lotte Jaspers, Dr. Mette Skraastad, Aya van den Kroonenberg PhD. Yellow Research has extensive experience in running ERC workshops and in pre-submission reviews of ERC Starting, Consolidator and Advanced grants. At Yellow Research we have successfully trained candidates for

writing ERC proposals since the 2008 call. Their solid knowledge and experience in pre-submission reviewing of ERC proposals is an important aspect of their success in interview training.

Our online training

You can select one of the three options displayed below. During the webinar the trainer has ample time to address your questions. Slides of the presentations of the entire Webinar as well as our "Yellow Research ERC Guide" will be made available via our E-learning environment. The fee for this training including the course material is € 735, VAT exempted.

YR ERC Guide

Join one of our Live Webinars

Option 1

webinar date:

Thursday 28 April 2022

part 1: 10:00 - 12:00 hrs (CET)

part 2: 13:00 - 15:00 hrs (CET)

Yellow Research trainer: **Mette Skraastad**

Option 2

webinar dates:

part 1 - **Monday 16 May 2022**

10:00 - 12:30 hrs (CET)

part 2 - **Monday 23 May 2022**

10:00 - 12:30 hrs (CET)

Yellow Research trainer: **Lotte Jaspers**

Option 3

webinar date:

Thursday 16 June 2022

part 1: 10:00 - 12:00 hrs (CET)

part 2: 13:00 - 15:00 hrs (CET)

Yellow Research trainer: **Aya van den Kroonenberg**

How to register

Registration for the webinar can be done via our website.
