

APPLYING FOR A MARIE CURIE POSTDOCTORAL FELLOWSHIP

As a young postdoctoral researcher, this is the time to consider new directions in your research. What is your ambition for the next stage in your career? What do you need to do now in order to achieve your goals in the future? A Marie Curie Postdoctoral Fellowship offers a great opportunity for (young) researchers to boost their careers by going abroad gaining new skills and expertise at a host institute.

Considering the fierce competition and new eligibility and evaluation criteria, writing a successful MSCA Post Doctoral Fellowship proposal is a true challenge, as having a good idea is simply not enough.

This training is not only relevant for potential Marie Curie Post Doctoral fellows but also for their supervisors who are planning to recruit talented researchers and for EU support staff at universities.

OUR REMOTE TRAINING:

In order to offer optimal flexibility in the current circumstances, we developed a remote training involving a mix of live Webinars and extensive on-line material:

- **Live Webinar 1:** Addressing the main principles and concepts of a succesful MSCA PF project. This is a live event of 2 - 2,5 hours duration, during which your questions can be addressed by the trainer.
- **Live Webinar 2:** Highlighting the most important elements of a succesful proposal, making sure that your proposal does not miss any item which could result in a deduction of points. Again, this is a live event of 2 - 2,5 hours duration, during which your questions can be addressed by the trainer.
- **Video tutorials** (approximately 5 hours) elucidating what it takes to write a successful grant proposal, organised per proposal paragraph.
- **Additional training material**, such as hand-out slides and our Yellow Research Guide will be made available via our E-learning environment.

JOIN OUR LIVE WEBINARS:

OPTION 1

part 1:

Tuesday 17 May 2022

9:30 - 12:00

part 2

Tuesday 24 May 2022

9:30 - 12:00

Yellow Research trainer

Lotte Jaspers

(all the times mentioned above are Central European Time)

OPTION 2

part 1:

Friday 27 May 2022

9:30 - 12:00

part 2

Friday 3 June 2022

9:30 - 12:00

Yellow Research trainer

Aya van den Kroonenberg

(all the times mentioned above are Central European Time)

WEBINAR FEE

The fee for this webinar is € 775.- (VAT exempted)

This fee includes: two live webinars, video tutorials
and additional course materials

HOW TO REGISTER

Registration for the webinar can be done via our website.

Please visit www.yellowresearch.nl
and choose your preferred option
(option 1 or option 2)
